

**I CLAIM:**

1. A new and distinct cultivar of *Albizia julibrissi* Durazz. that displays the following combination of characteristics:

- (a) an attractive spreading generally umbrella-shaped growth habit,
- (b) a profusion of attractive strongly fragrant blossoms having long  
5 tufted stamens that bear carmine magenta-red coloration of good  
stability,
- (c) large glossy dark green foliage, and
- (d) good resistance to cold;

substantially as illustrated and described.
